Bakers Pride® ER series pizza ovens are ideal for high-volume restaurants, offering the same durability and performance as our gas deck ovens but with the low maintenance of an electrical system. The independently controlled, U-shaped heating elements on top and bottom allow for uniform temperatures and perfectly balanced baking. Each oven chamber has one steel deck with a 12" deck height. Choose from two different deck areas and overall widths (55" or 74").

This series is constructed with heavy-duty angle iron frame, which is fully welded to allow for stacking up to three ovens to increase production without sacrificing space. Oven exteriors are all heavy-duty, stainless steel and are fully insulated for cooler outer temperatures and consistent interior temperatures.

Options are available to accommodate the configuration of your kitchen, such as side-mounted controls and legs with casters.
